

We are excited to announce the arrival of Google Apps for Education at Havre Public Schools. We have found many exciting and convenient features for students, families, and staff. Along with being able to view lesson plans and assignments created within Google Classroom, students will also have access to Google Docs, Google Slides, and many other new features. Students are welcome to load their school profiles on any internet capable personal device in order to complete keep up on school communication and work. Families may choose to download the free Google Chrome Browser on home computers and laptops to make access even easier. Google offers free applications for most tablets and smart phones. When logging into Google student accounts please use the student email address demonstrated below. Students have created passwords for themselves. Thank you!

## Sign in to Chrome

Sign in to get your bookmarks, history, passwords, and other settings on all your devices. [Learn more](#)

A screenshot of the Chrome sign-in interface. At the top is a grey circular profile icon. Below it is a text input field containing the email address "firstname.lastname@blueponyk12.com". Underneath the input field is a blue button labeled "Next". To the right of the "Next" button is a link that says "Need help?".
