

# Calendar Committee Community Survey

With the flexibility schools have had in their ability to ensure they have a minimum number of hours of instruction in a school year as opposed to a set number of days, schools across the state of Montana continue to look at modified calendars and schedules to better meet the needs of students.

With the changes and modifications schools had to make during the pandemic to continue with student learning, there was a realization that a school could possibly better meet the needs of the students in something different than a traditional 5 day a week structure.

Havre Public School is currently in the research and reviewing stage with a diverse group of stakeholders to review the possibilities of a 4-day week schedule for the upcoming school year. Staff surveys have been completed and the next step is to collect a community survey followed by several committee meetings before a recommendation is formed to take to the Board of Trustees for consideration in February of 2022.

This survey will close THURSDAY, NOVEMBER 4 AT NOON. Email [4day@blueponyk12.com](mailto:4day@blueponyk12.com) with comments or questions. Thank you
