Exciting NEW courses for Spring 2015

Course descriptions available at: mtda.link/new
We recently conducted a survey of current MTDA high school students and they recommended these courses be offered to Montana students.

High School
- Courses are designed to offer exceptional enrichment experiences in engaging topics to your students.
- Students can earn elective credits in English, math, science, social studies, career and technical education, and family consumer science.
- Includes a one semester AP® course.

Middle School

Multi-Language Sampler
- Students in grades 6-8 will get an introduction to world languages (Spanish, French, German, Latin or Chinese) in seven-week mini courses.

Stepping Stones to Middle School Algebra I
- Intended for 6th, 7th, and 8th graders that know that they will be taking MTDA Algebra I A & B.
- The course covers how to be a successful online student, communicate digitally, a review of pre-algebra content, and a jumpstart on the MTDA Algebra I curriculum.
